

SnailBox Auto Install

If you have installed the plugin, please back up the SnailBox folder first. For details, please read on. 🕒 [SnailBox Update](#)

1. Download the files and place the SnailBox folder into your custom folder.

- Download link: <https://github.com/wjsif2017/SnailBox>
- Houdini 21.0 and above: Please download the latest files
- Houdini 18.5 ~ 20.5: Please download Release SnailBox_v20.5.+

2. Open the s_install.hip project in the installation folder with Houdini.

3. Confirm the path for SnailBox.

4. Enter email and CD_KEY

5. Check the shelf Tools and Python panels

1. If the installation fails, you can manually install 🛠️ [SnailBox Manual Install](#)
2. If you need CD_key, Please read 🏆 [Active CD_KEY](#)
3. If you need help, contact the author at 723120326@qq.com.
